MPsrch_pp protein - protein database search, using Smith-Waterman algorithm

Run on: Fri Mar 17 13:02:07 2000; MasPar time 35.36 Seconds 951.981 Million cell updates/sec

Tabular output not generated.

Description: Perfect Score: Title:

Sequence: >US-09-361-552-1 (1-840) from US09361652.pep 6338 1 MLFWAAHLLLSLQLVYCWAF......NNTEHFQASIQDYTRRCGTT 840

Searched: PAM 150 Gap 11 122810 segs, 40068593 residues

Scoring table:

Post-processing: Minimum Match 0% Listing first 45 summaries

Database: pir62 1:pir1 2:pir2 3:pir3 4:pir4

Statistics: Mean 52.607; Variance 107.685; scale 0.489

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     ##experimental_source brain
##experimental_source brain
## This protein is coupled to a G protein and evokes a variety of
functions by mediating intracellular signal transduction.
##superiamily metabotropic glutamate receptor 4
